PRIVATE ROOM SOLUTIONS

SAFE CUBBIES PRIVATE MEETING ROOM SOLUTIONS

The SAFE CUBBIES Professional Private Room Systems are the perfect office/show/conference solution for either temporary space or privacy at a trade show, event, or sales meeting. The modular panels assemble quickly without tools and include wire management and accessory options like: monitor mounts, counters, shelves, charging tables, and lighting.

The brand-able panels are double-sided and accept both direct print or silicone fabric graphics.

SQUARE/OVAL/TRAPEZOID SHAPED ROOMS

Start with a single room, adding additional rooms as needed. The modular construction makes it easy to re-configure. Rooms and layouts can change almost every day and disassembly is a snap. All constructed without tools.
